

## Westmead Genomics Information session

Join as we showcase local genomics technologies provided by Westmead Genomics and AGRF.

Wednesday 10 April 2024

1:00 pm - 2.30 pm

WIMR Seminar Room

Refreshments will be provided

Speakers and topics to be presented include:

Speaker: **Joey Lai** (Manager - Westmead Genomics Facility)

- NGS applications
- Nanostring technology for gene expression profiling
- Digital droplet PCR for detection of rare targets
- Single cell and spatial transcriptomics

Speaker: **Ruwani Dissanayake** (I&D technical scientist - AGRF)

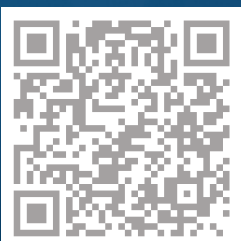

- HIVE: Single-Cell Sequencing in One Handheld Device
- Unlock Your Plasmid's Secrets: Whole Plasmid Sequencing by NGS

Speaker: **Hana Franca** (Lab Supervisor - AGRF)

- Sydney NGS Platforms

Speaker: **Oliver Distler** (Senior Account Manager - AGRF)

- Collaborative opportunities
